Motivated Full-Stack Web & Mobile Developer skilled in building responsive web and mobile applications, RESTful APIs, and relational data models using React, React Native, Node.js, Spring Boot (MVC), MySQL, JavaScript, HTML, and CSS. Combines technical expertise with strong problem-solving abilities and user-centered communication. Committed to writing clean, reliable code and designing intuitive, accessible user experiences across web and mobile platforms.

SKILLS

Front-End & Mobile	Back-End Development	Concepts & Tools
React.js, React Native (Expo) HTML5, CSS3, Responsive Design Mobile App Design & UX Patterns UI/UX Principles, DOM Manipulation	Node.js, RESTful API Design Spring Boot (MVC), Java MySQL, Relational Data Modeling API Endpoint Development (GET/POST)	Full-Stack Development Client-Server Architecture Asynchronous Programming Git/GitHub, Postman, AsyncStorage

WORK EXPERIENCE

AI Native Full-Stack Developer Program — St. Petersburg, FL *March 2026 – Present*

- Built full-stack web and mobile applications using React, React Native, Node.js, Spring Boot (MVC), and MySQL in an intensive, project-based curriculum
- Designed mobile app interfaces with React Native (Expo), focusing on navigation flow, usability, and platform-appropriate UX patterns
- Built RESTful back-office services in Spring Boot (MVC) with a layered controller/service/repository architecture backed by MySQL
- Designed and tested RESTful API endpoints (GET, POST) using Postman; used Git/GitHub for version control and collaboration

Certified Peer Support Specialist — St. Petersburg, FL *Feb 2024 – Jan 2026*

- Advocated for participants with substance use and mental health challenges, helping assess needs and identify practical support solutions
- Collaborated with a multidisciplinary team to develop and implement treatment and life plans that supported independent living and self-sufficiency
- Completed monthly billing for Central Florida Behavioral Health Network (CFBHN) with a focus on accuracy, timeliness, and meeting agency targets

Warehouse Worker / Resident Manager — Tampa, FL *Jan 2022 – Feb 2024*

- Managed inventory and warehouse operations while supporting a team of 20+ participants
- Promoted to Resident Manager based on leadership and performance
- Oversaw operations of a residential facility serving ~30 individuals, ensuring compliance and coordinating programs

EDUCATION

Certified Recovery Peer Specialist — June 2025 (current)

High School Diploma — June 2016

PROJECTS

Rocket Food Delivery — Mobile App | *React Native, Expo, Spring Boot, MySQL*

- Designed and built a cross-platform mobile food delivery app in React Native (Expo), covering navigation, authentication, and restaurant listing/menu screens
- Integrated a Spring Boot (MVC) back-office backed by MySQL for restaurant, menu, and order data via RESTful endpoints
- Applied mobile-specific UX patterns including AsyncStorage for local persistence and React Navigation for multi-screen flow

Cryptoverse Analytics Dashboard | *React, Recharts, CoinGecko API, Alternative.me API*

- Built a logarithmic-regression DCA risk model that scores the market from 0 to 1, turning noisy price and sentiment data into a single signal a person can read before they buy
- Visualized live price, risk score, and sentiment data with Recharts, pulling from the CoinGecko and Alternative.me APIs
